Applications

An investment in the Fund offered under this PDS is not guaranteed by the Responsible Entity or ASA. You should consider this when assessing the suitability of the investment, and particular aspects of risk. Some of the risks of managed investment schemes are explained in section 8.

Applications for investment in the Fund can only be made using the Application Form provided together with this PDS.

If you receive this PDS electronically, please ensure that you have received the entire PDS and Application Form. If you are unsure whether the electronic document is complete, please call us on 1300 553 122 or +613 9909 9909 if calling from overseas.

This PDS is available on our website www.asarep.com/dpf or a free paper copy is available by calling us on 1300 553 122 or +613 9909 9909 if calling from overseas.

No investments will be accepted on the basis of this PDS once it is replaced with a later PDS.

Seeking financial advice

This PDS contains important information but does not take into account your investment objectives, financial situation or particular needs. Before making any decision based upon information contained in this PDS, you should read it carefully in its entirety, and consider consulting with a financial adviser or tax adviser.

Eligibility

This PDS has been prepared to comply with the requirements of the laws of Australia. This PDS may only be used by investors receiving it (electronically or otherwise) in Australia. No Units are being offered to any person whose registered address is outside of Australia unless we are satisfied that it would be lawful to make such an offer. The distribution of this PDS in jurisdictions outside of Australia may be restricted by law and persons who come into possession of this PDS should seek their own advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. This PDS does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an

offer or invitation.

Indirect investments

The Responsible Entity has authorised the use of this PDS for investors considering placing an investment through a masterfund, wrap or similar platform product (collectively referred to as investor directed portfolio service or IDPS in this document). In this PDS, the operator of that IDPS product will be referred to as your IDPS operator. Information for IDPS investors can be found in section 12.

Business day

In this document 'business day' refers to a Melbourne business day on which Australian banks are open for business in Melbourne excluding Saturday and Sunday.

Disclosure, terms and conditions

Units are issued on the terms and conditions contained in the Fund's Constitution and the disclosures made in this PDS. We reserve the right to change, to the extent permitted by law and subject to compliance with all processes required by law, the disclosures in this PDS and the terms and conditions contained in the Constitution, without prior notice.

Goods and services tax

Fees and charges set out in this PDS, unless otherwise stated, are inclusive of goods and service tax (GST) less input tax credits (including approximate reduced input tax credits) that the Fund may be entitled to claim.

Currency

All dollar amounts referred to in this PDS are expressed in Australian dollars.

Section 1: Disclosure principles and benchmarks

The Australian Securities and Investments Commission (ASIC) requires responsible entities of unlisted property schemes in which retail investors invest, to provide a statement addressing six benchmarks and eight disclosure principles.

These benchmarks and disclosure principles are outlined in *ASIC Regulatory Guide 46: Unlisted property schemes – Improving Disclosure for Retail Investors* (RG46). The disclosure benchmarks and principles are intended to assist retail investors to understand, compare, and assess unlisted property trusts, such as the Fund.

The below table confirms whether we comply with each of ASIC's RG46 benchmark and disclosure principles and indicates where they have been addressed in the PDS and the Benchmark Notice.

This PDS incorporates by reference, the Fund's Benchmark Notice which addresses ASIC's RG46 benchmarks and principles and provides up to date disclosure information about the Fund.

Before deciding whether to invest in the Fund, you should read a copy of the Fund's most recent Benchmark Notice available at www.asarep.com/dpf and latest Annual report available at www.asarep.com/dpf together with this PDS. Free paper copies of these documents are available by calling us on 1300 553 122 or +613 9909 9909 if calling from overseas.

2. It is important that you consider the risks of investing which are explained in 'Risks of managed investment schemes' in section 8.

Section 3: About the Fund

The Fund is an unlisted property trust that aims to provide investors with monthly tax-effective income and the opportunity for capital growth over the medium to long term. The Fund aims to achieve this by investing in a diversified property portfolio of quality Australian commercial properties including offices, convenience retail shopping centres and industrial properties.

How the Fund works

Investor capital is pooled with borrowings from lenders to purchase, maintain and/or redevelop direct property and related assets for the Fund.

Fund income

Rent from the Fund's properties and income earned on its other investments generate income. This income is used to meet the interest expenses on the Fund's borrowings, management fees, property-related expenses and appropriate ongoing Fund expenses.

We may also retain some income as a provision for items such as future expenses or capital requirements. Once these costs and provisions are met, the remaining income is distributed to investors.

Medium to long term capital growth

The capital growth (or loss) of your investment is largely attributed to revaluations of the Fund's properties and changes in value of other investments including interest rate derivatives and the level of borrowings held by the Fund.

There are risks associated with every investment and it is important that investors consider the risks of investing and take into account their own personal investment goals and financial situation. Some of the risks of managed investment schemes are explained in section 8.

Investment strategy and criteria

The investment strategy of the Fund is to acquire, manage and grow a diversified commercial property portfolio including but not limited to offices, convenience retail properties and industrial properties in Australia.

The Fund's diversification strategy aims to provide stability of income through periods of change in the economic environment and enables us to actively manage the portfolio to achieve its aims.

The Fund primarily invests in the following:

Direct property assets and unlisted property trusts

The Fund typically holds 70–100%¹ of its assets in direct property.

The Fund may hold up to 20% of its direct property exposure through unlisted property investments.

The properties held include (but are not limited to):

- Commercial (e.g., office buildings)
- Retail (e.g., convenience retail shopping centres)
- Industrial (e.g., warehouses)

Listed Australian REITs

The Fund may hold between 0–15%¹ in the listed Australian REITs sector.

Cash²

The Fund may hold between 0–20%¹ in cash and similar investments.

1. The target allocation thresholds may change over time and represent a percentage of the Fund's total assets.

2. Cash is held by Australian ADIs (including certificates of deposit, bank bills and other cash-like instruments) and will generally be no more than 20% of the Fund's net assets.

Direct property

The Fund's properties are predominantly situated in capital cities and major regional and metropolitan centres although the Fund may invest outside these areas if appropriate.

The Fund's property portfolio is diversified by geographic location, tenancy mix, lease terms and size of properties which helps to reduce specific property risk.

Unlisted property trusts and listed Australian REITs

The Fund may also invest in property trusts (i.e. unlisted property trusts and listed Australian REITs) provided the proposed investment meets the Fund's investment objective.

Unlisted property trusts and listed Australian REITs may be used to achieve the target level of exposure to suitable properties and to enhance geographic and sector diversification.

The Fund typically invests in unlisted property trusts to achieve exposure to suitable properties and to enhance geographic and sector diversification.

Listed Australian REITs may also be used in conjunction with cash, to support the Fund's ongoing cash flow management.

Property developments

Property development usually involve;

- the construction of a new building;
- a significant increase to the lettable area of a building; or
- a change to the nature or use of the property.

Development of the Fund's existing assets

In managing the Fund's property portfolio, we may refurbish or redevelop properties from time to time as required.

The Fund seeks to enhance its existing properties through selective exposure to property development with the aim of improving rental returns and the capital value from the developed property.

Material property developments will only be undertaken where, in our view, substantial pre-commitments to lease are in place and development risk is appropriately mitigated.

New property developments

New property developments may be considered, with a view to retaining ownership in the medium term. Speculative development is not part of the Fund's strategy.

Up to date information on the Fund's significant property developments (if any) is available in the Fund's latest Benchmark Notice.

Selling assets

We may sell assets where we believe it is in the best interests of the Fund and investors. We consider a range of factors with reference to the current valuation of the asset, including but not limited to:

- the potential for future capital appreciation of existing properties relative to other properties available on the market;
- the impact of new competition, changes in local economic conditions and demographic changes;
- the overall portfolio composition and any requirements to rebalance the portfolio; and/or
- the Fund's liquidity requirements (where applicable); and/or
- the Fund's level of borrowing (gearing).

Derivatives

The Fund is permitted to use derivatives to manage interest rate risk associated with the borrowings of the Fund.

Refer to 'Derivative risk' in section 8 for further information.

Up to date Fund portfolio information

The Fund's composition and diversity will change over time as assets are acquired or disposed, developed and tenancies are re-let.

Information on the Fund's current portfolio (including a full list of properties and investments in listed Australian REITs and unlisted property trust) is available in the Fund's latest Benchmark Notice and announcements on the Fund's website and through its quarterly Fund Updates.

Significant Investment Visa (SIV) Compliance

The Fund meets the requirements for a 'Balancing investment' under the SIV framework, in accordance with Section 10, and the 'General requirements' set out at Section 11 of the legislative Instrument 'IMMI 15/100: Complying Investments'.

The Fund is monitored to ensure that it maintains and complies with SIV legislative requirements.

For investors applying under the SIV framework please contact us for a copy of our compliance/declaration letter and Declaration Form 1413D.

Your financial adviser will be able to provide further information if required.

It is important that you consider the risks of investing which are explained in section 8.

Section 4: About the Manager

ASA Real Estate Partners (ASA) is a specialist Australian real estate investment management company. ASA's Directors have over 90 years of combined relevant experience gained from their careers in investing in property.

The ASA team's experience includes investing in Australia across the States and Territories and internationally and includes investing in a range of different types of commercial property including retail, office, residential, storage, healthcare and industrial.

ASA's experience includes investing and operating unlisted and ASX listed real estate investment trusts for wholesale and retail investors.

ASA's directors previously worked together at APN Property Group, an ASX listed real estate investment management company which was sold to Dexs in 2021. At that time APN's funds under management exceeded \$3 billion and included two ASX listed real estate investment trusts.

ASA is committed to putting its investors first and to operating under its values of integrity, courage, humility and commercial acumen.

ASA is headquartered in Melbourne, Australia and its team is based in Melbourne and Brisbane. Its team includes investment professionals with significant expertise across real estate acquisition, sales, leasing, development, capital expenditure and asset improvement, strategy, financing, capital management, accounting, compliance, governance, risk management, information technology, investor relations, sales and marketing. ASA uses standard operating procedures and technology to enhance its operational efficiency and risk management.

ASA values excellent customer service in the delivery of risk adjusted investor returns.

For more information on ASA visit www.asarep.com.

Investment philosophy

It is our investment philosophy that the market prices for properties do not always reflect the underlying value. This may present an opportunity to generate value by buying and selling properties at the most optimal time. Value can also be achieved, and investment risk mitigated, by skillful property and tenant management.

The properties we purchase are carefully selected after assessing the value, considering inherent risks, and the ability to mitigate those risks. The selection process also takes into account:

- location attributes, such as demographic profile, road and services infrastructure and the level of competition;
- property specific criteria, such as the quality of buildings and opportunities to enhance or redevelop the property to protect and/or grow future income and capital value; and
- covenant strength and tenant lease profile.

We actively manage the Fund's portfolio with the aim to optimise the Fund's return.

Investing

This table explains how to make an investment in a Fund. Applications can be made daily online, by email, or by post. The Application Form (available online and to download) and TMD can be found on our website at www.asarep.com/dpf.

	What you need to send us	Minimum investment amount ¹	Cut off times	Important information
Initial investment	A completed Application Form and direct debit details	\$5,000	Must be received by 3:00pm at our Melbourne office on a business day to be assessed for acceptance.	Review your application before you sign it, as incomplete applications may not be accepted.
Additional investment(s)	A completed Application Form and direct debit details	\$1,000	We will notify you of the effective application price and allotment date you receive in your Confirmation of Investment statement.	
Regular investments through a Regular Savings Plan	A completed Application Form including the relevant section to nominate the amount you will regularly invest and your direct debit details.	\$100 per month \$300 per quarter \$600 per half year \$1,200 per year	The Application Form must be received five business days before the start of your contributions. Your Regular Savings Plan contributions will be drawn from your bank account on the 15th of the month unless the 15th day of the month is a weekend or public holiday, then it will be on the next business day.	Ensure that you complete the Regular Savings Plan section in the Application Form. Changes can be made to your Regular Savings Plan contributions, provided you give us five business days to action your request. Your Regular Savings Plan will automatically cease if two consecutive payments are dishonoured.
Transferring your investment	A transfer form completed by both parties and (for new investors) a completed paper Application Form for the Fund completed by the transferee.	\$1,000	Must be received by 3:00pm at our Melbourne office on a business day to be assessed for acceptance. We will notify you of the effective date of your transfer you receive in your transaction statement.	If you choose to transfer only part of your investment you will be required to keep a minimum of \$5,000 in your account.

1. We may vary minimum investment amounts at our discretion.

Handling of applications

Pending the issue of Units to an investor, the application amount paid by them will be held in a trust account that complies with the Corporations Act 2001.

No interest will be paid on application amounts for the period from receipt until the issue of Units occurs. Similarly, no interest will be paid to any investor whose application (or part of an application) is returned unfilled. Any interest earned on the application amount during this period will be retained by the Fund and form part of its income for the benefit of investors. We may, in our absolute discretion, reject in whole or in part any application. We need not give any reason for rejection.

Suspension of further applications

In exceptional circumstances, where it is considered to be in the best interest of investors, the processing of all applications may be suspended. If this occurs, any applications submitted but unprocessed will be processed (if accepted by us) once applications are reopened, using the next available Unit price.

Changing your mind

A 14-day cooling off period is available to you to decide whether to proceed with the application under this PDS. The cooling off period starts on the earlier of:

- the date you receive your initial investment transaction statement; or
- five business days after your Units are issued.

If you wish to cancel your investment, it is important that you write to us before the expiration of this period.

The amount repaid to you is adjusted to reflect any increase/decrease in the value of the investment due to market movement. We will also deduct any taxes or duties payable and transaction costs. As a result, the amount returned to you may be less than your original investment.

If you are a 'sophisticated' or 'professional' investor or otherwise a 'wholesale client' (as defined in the Corporations Act 2001) the cooling off period is not available to you.

If you are investing through a masterfund or IDPS, you should consult the operator in relation to cooling off rights that may apply to your investment in the masterfund or IDPS (if any) as the cooling off period for this Fund will generally apply to direct investors of the Fund only.

Section 6: Requesting withdrawals

The Fund previously offered a quarterly Capped Withdrawal Facility which allowed investors to apply to withdraw some or all of their investment in the Fund by value or by number of Units (subject to a limit of 2.5% of the Fund's net asset value across all redemptions each quarter). The Fund also offered a 'carry forward facility' in which investors could choose to have any unfulfilled withdrawal request automatically carried forward to the next Capped Withdrawal Facility and treated as a new withdrawal request.

The Responsible Entity has made a decision to suspend the Capped Withdrawal Facility (including the carry forward facility) until further notice. The Responsible Entity has made this decision taking into account the outlook for the Fund, including current economic conditions and gearing, as well as the income generation from the Fund's assets.

The Responsible Entity currently intends to recommence the Capped Withdrawal Facility at a later date, when it determines in its discretion that it is appropriate to do so. Any decision by the Responsible Entity to recommence the Capped Withdrawal Facility will take into account the Fund's gearing ratio (including whether it falls within the target range), and other considerations in the best interests of investors as a whole. In the event a decision to recommence the Capped Withdrawal Facility is made, the Responsible Entity will provide notice to investors on the Fund's continuous disclosure notices page at www.asarep.com/dpf. However, it is not guaranteed that the Responsible Entity will make the Capped Withdrawal Facility available again, or if it does, whether it will be within any specific investor's intended timeframe for holding Units. Given this, an investment in the Fund should be regarded as an illiquid investment with no withdrawal opportunity available.

Investors who have submitted withdrawal requests as part of the Capped Withdrawal Facility to which the carry forward facility applies will continue to participate in the carry forward facility if the Capped Withdrawal Facility is recommenced (subject to the terms of that carry forward facility).

Illiquid nature

As the Capped Withdrawal Facility has been suspended, there is not currently an opportunity to seek to partially or fully redeem an investment in the Fund. Given this, you may not be able to access any capital invested in the Fund until the Responsible Entity determines to recommence the Capped Withdrawal Facility. There is no certainty as to if or when this will occur. This means that if you invest in the Fund, you must be able to tolerate an illiquid investment in the Fund for an indefinite period, as there is no guarantee that you will be able to access proceeds (if any) from an investment in the Fund within a specific timeframe.

Section 7: Unit prices and distribution payments

How we calculate unit prices

Unit prices are generally calculated each business day. The Unit price is calculated by deducting the Fund's liabilities from the valuation of the Fund's assets. The resulting amount is then divided by the total number of Units on issue in the Fund.

Both the application and the withdrawal price are calculated taking into account any applicable buy/sell spread. The buy/sell spread is a percentage amount applied to the Unit price. It ensures that there is an equitable application of the costs of buying and selling assets to investors entering and exiting the Fund. Refer section 9 for more information on the buy/sell spread of the Fund.

Where we apply our discretion to Unit pricing using our powers under the Fund's Constitution (e.g. in determining an appropriate level for the buy/sell spread, based on estimates of underlying transaction costs being incurred by the Fund), we act in accordance with our set policies. Investors may inspect a copy of these policies at our registered office at any time between 9:00am and 5:00pm (Melbourne time) on a business day or you can request a free paper copy by calling Investor Services on 1300 553 122 or +613 9909 9909 if calling from overseas.

For Unit price updates please visit our website or call us on 1300 553 122 or +613 9909 9909 if calling from overseas.

Distribution payments

The amount of distribution income paid to you is based on the number and class of Units you hold at the end of each distribution period.

Distributions are generally paid within 15 business days of the end of each calendar month.

There are two payment options available to you:

1. Reinvest your distribution

The distribution reinvestment price is the net asset value per Unit price at the end of the distribution period (without the buy spread) less the amount of distribution payable per Unit and until 31 December 2024, at a 10% discount to that price and from 1 January 2025 onwards, at a 5% discount to that price (we reserve the right to change the discount rate applied to the reinvestment price. We will notify you of any change to the discount applied to the reinvestment price on our website).

If you wish to reinvest your distributions, you should complete the relevant section of the Application Form, including to specify the portion of your distributions that you would like to reinvest (if you don't want to reinvest your full distribution amount). Only investors with an Australian registered address may reinvest their distributions.

2. Have your distribution paid directly to an account held at an Australian bank or financial institution.

If you wish to have the distribution paid to you, complete the relevant section of the Application Form and provide your bank account details. If you do not provide bank account details, or the payment to your nominated bank account is rejected, then your distributions will be automatically reinvested in the Fund.

Please note if you are investing through a masterfund or IDPS, the operator may pay income at different times and may not offer you a choice of payment options.

Distribution practices

The distribution policy of the Fund is aligned to its ongoing earning capacity from assets held.

The Fund aims to source all distributions from funds from operations (FFO). However, it is permitted to fund distribution payments from other sources, such as capital, if we consider it to be in the interests of investors (for example if rental income is suddenly reduced unexpectedly) and where payment from that source is expected to be sustainable given the circumstances.

FFO is a key determinant for the Fund when calculating and deciding the level of distribution to pay. To reconcile net profit to FFO and distributions, the Fund may make adjustments to net profit for changes in investment properties, non-cash impairment of goodwill, non-cash fair value adjustments to financial instruments, amortisation on incentives, rental straight-line adjustments and other unrealised one-off items.

Where the Fund makes distributions from capital, this will have the effect of reducing investor equity. Where this occurs and the Fund has borrowings, the reduction in investors' equity will have the effect of increasing the gearing ratio and gearing related risks. Where a fund is close to its gearing related covenants, the risk of breaching these covenants is increased.

Further information on the Fund's distributions, including a reconciliation of the net profit to FFO and distributions, is set out in the Fund's latest Benchmark Notice.

Section 8: Risks of managed investment scheme

What is risk?

'Risk' generally refers to the variability or volatility of an investment return and the likelihood of incurring a loss on your investment.

All investments come with a degree of risk and different strategies carry different levels of risk, depending on the assets that make up the strategy.

The main risks of investing include a decrease in the value of your investment, a fluctuation or a decrease in the amount of income generated from the investment, or a lower than expected rate of return.

These risks can arise from various circumstances, including:

- changes to law or government policies relating to tax or economics that may have adverse impacts on investment markets or the tax treatment of trusts or investment returns ('regulatory risk'). See section 10 for more details; and
- changes to social, economic (e.g. inflation and interest rates), political, commercial and technological environments, or to market sentiment, that may make certain investments less attractive ('market risk').

It is commonly accepted that there is a relationship between the level of return generated by an investment and its level of risk. The illustration below shows the four main types of investments and their relationship to risk and return.

If investment security is your highest concern when selecting investments, an investment with lower risk might be the most suitable option. These types of investments may deliver a lower return in the long-term. Conversely, if your focus is towards achieving higher returns, then an investment option with higher risk may be suitable. However, fluctuations in the value of the investment could occur, which could result in the initial investment value going down, as well as up.

How we manage risk?

We are unable to completely eliminate all investment risks, but we do analyse, manage and aim to reduce the impact of risks through the use of carefully considered investment guidelines.

We also spread investments across a diverse range of property assets to reduce the reliance upon the performance of any single property asset class. If one asset is performing poorly, another may perform well.

Diversification may assist in reducing short-term volatility.

How you can manage your risk

In managing your risk, we recommend that you:

- Seek advice from an independent financial adviser to understand how your current financial situation and investment objectives affect the selection of investments;
- Consider your investment timeframe, investment objectives and risk tolerance; and
- Diversify your investments to help reduce risk and the volatility of investment returns.

Risks relevant to the Fund

The Fund only comprises Australian commercial real estate assets including directly owned properties (such as offices, shopping centres and industrial properties), unlisted property trusts and listed Australian REITs. With the exception of Australian REITs and cash, property assets tend to be less liquid than other forms of investment and it may take considerable time for the Fund to sell a property.

The valuation of direct and unlisted property assets is closely linked to rental income, occupancy levels, tenant quality, lease terms, location and supply and demand factors, and may also be impacted by other factors such as environmental risks (such as land contamination, the cost of removing potentially hazardous materials and climate change). Changes to any of these elements may affect the value of the underlying property and ultimately the value of your investment. A decline in property prices may impact the Fund's gearing ratio and loan covenants and the Fund may be required to reduce its borrowings through the sale of assets, additional capital raising (including discounted capital raising) or suspending distributions (to retain income in the Fund).

The business conditions for tenants may change adversely, which may result in tenants seeking rental assistance, defaulting on rental payments, abandoning leases, or not renewing leases on expiry. A reduction in rental income received by the Fund may impact the level of distributions it can make and may reduce the value of its assets.

In the day-to-day operations of the Fund, allowances are made for known capital works and maintenance of the properties. However, unforeseen repairs or capital works may be required, which may reduce the amount of income available for distribution to investors.

The long-term strategy for the Fund is to grow the property portfolio through acquisition of new properties and the enhancement of existing properties as appropriate. These activities may depend on raising additional equity from new or existing investors and may be supplemented with borrowings. If we are not able to raise sufficient capital the Fund may not be able to grow according to its strategy. In addition, future acquisitions may not yield their expected results, resulting in less cash being available for distribution than initially forecast and other adverse effects on the Fund.

Liquidity risk

There is currently no ability to seek to partially or fully redeem an investment in the Fund.

Given this, you will not be able to access any capital invested in the Fund until the Responsible Entity determines to recommence the Capped Withdrawal Facility. There is no certainty as to if and when this will occur. This means that if you invest in the Fund, you must be able to tolerate an illiquid investment in the Fund for an indefinite period, as there is no guarantee that you will be able to access proceeds (if any) from an investment in the Fund within a specific timeframe.

Property development risk

A risk of property development is construction risk. Construction projects carry a risk that the costs of the project might be higher than budgeted or the project may be delayed or, in extreme circumstances, not finished.

We endeavour to mitigate construction risks by negotiating arrangements with builders whereby any costs incurred are fixed for most items. In addition, we aim to ensure that substantial pre-commitments to lease are in place before commencing any development.

Borrowing risk

The Fund combines investors' money with borrowed money from third party lenders and invests the combined amount in property related assets. This process, known as gearing, magnifies the effect of gains and losses on your investment and is considered more risky than similar investments that are not geared.

If property values or rental income fall significantly the Fund may be unable to meet its loan covenants which may result in the sale of assets. If this occurs, the Fund may lose value from selling assets in poor market conditions.

In addition to the property risks outlined above, changes to interest rates or lender credit margins impact borrowing costs and ultimately impact the level of distribution you receive. There is also a risk that the Fund may not be able to refinance its borrowings when borrowing facilities mature. If this occurs, the Fund may lose value from selling assets in poor market conditions in order to repay the borrowed amount.

Our approach is to actively manage the Fund's borrowings in conjunction with the lenders to help manage this risk.

Legal and counterparty risk

The Fund may, in the ordinary course of business, be involved in possible litigation and disputes. For example, tenancy disputes, environmental and occupational health and safety claims, industrial disputes and any legal claims or third-party claims.

A material or costly dispute or litigation may affect the value of the assets or the expected income of the Fund. The Fund has entered into, and may in the future enter into, legal documents and contracts in relation to numerous aspects of the Fund's operation, for example, property management arrangements, custody arrangements, debt financing arrangements, property development arrangements and tenancy arrangements. The Fund may be adversely affected where a party fails to perform under these agreements.

Insurance risk

Any losses incurred due to uninsured risks or breaches of insurance policy conditions may adversely affect the performance of the Fund. Increases in insurance premiums may also affect the performance of the Fund. Insurance

premium increases could occur, for example, due to external market factors, or if the Fund claims under any insurance policy for significant losses in respect of the portfolio. Any failure by the company or companies providing insurance (or any reinsurance) may adversely affect the Fund's ability to make claims under its insurance. Also, most insurance policies have a minimum excess payable by the insured, which reduces the amount recoverable from the insurer.

There are also certain risks for which insurance cover is not available or for which the Fund does not have cover (including for certain risks in respect of the properties themselves). If the Fund is affected by an event for which it has no insurance cover, this would result in a loss of capital and a reduction to the value of the Fund and overall returns. An event of this type could also result in an increase in insurance premiums in the future.

Climate change risk

Extreme weather and other climate change related events have the potential to damage property assets and disrupt tenant operations. Such events may increase tenant costs for maintenance, the cost, deductibles or availability of insurance, the ability to re-lease properties in the future and the rent levels for which they can be leased, thereby affecting future property valuations and rental cash flows.

The precise nature of these risks is uncertain as it depends on complex factors such as policy change, technology development, market forces, and the links between these factors and climatic conditions.

Changes to existing regulatory regimes or the introduction of new regulatory regimes relating to climate change (including environmental or climate change related regulation) may also increase the cost of compliance, reporting and maintenance of assets.

Cyber security and fraud risk

The Fund relies on the internet as well as internal technology and information systems. This reliance may expose an investment in the Fund to risks linked to cyber security breaches. Cyber security breaches could allow an unauthorised party to gain access to proprietary information, investor data, or cause the Responsible Entity or our service providers to suffer data corruption or lose operational functionality.

Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites. The Responsible Entity cannot control the cyber security plans and systems put in place by third party service providers or investors, and cyber security breaches may originate from cyber-attacks on those parties.

An investment in the Fund may also be adversely affected if someone not authorised by an investor purports to provide us with instructions in relation to their investment in the Fund and we act on those instructions.

Operational risk

The performance of the Fund is reliant on the Responsible Entity and its service providers (which include related parties of ASA). An investment in the Fund is subject to the risk of loss arising from the organisational systems and processes, technology, people, external circumstances, regulatory and compliance frameworks and all other potential matters which directly and indirectly impact operations of the Responsible Entity and ASA (or any other service provider appointed by these entities).

Tax risk

Australia is a relatively high tax jurisdiction with complex tax laws. An investment in the Fund may give rise to a variety of complex tax issues for investors, some of which may relate to special rules applicable to certain types of investors.

Prospective investors are urged to consult their own tax advisers with specific reference to their own situations concerning an investment in the Fund.

Tax and duty laws are subject to change. Amendments to existing tax or duty laws, and the introduction of new tax or duty laws, may impact an investor's tax liability or the duty liability of the Fund.

Regulatory risk

The environment in which the Fund operates is subject to substantial government regulation, and governments have considerable discretion in implementing regulations that could impact the investments of the Fund.

In addition, the operations of the Fund may rely on government permits, licences, concessions, leases or contracts. Government entities generally have significant influence over development projects in respect of the various contractual and regulatory relationships they may have, and these government entities may exercise their authority in a manner that causes delays in the development of these projects, obstacles to the pursuit of these projects or increased administrative expenses.

A governmental agency may amend, repeal, enact or promulgate a new law or regulation, or a government authority or court may issue a new interpretation of existing law or regulation. In each case, such actions could negatively impact the value of an investment in the Fund.

Derivatives risk

A derivative is a financial transaction which derives its value from another source, such as a share or bond. The main types of derivatives are futures, options and swaps. Derivatives can expose the Fund to other risks which are particular to derivatives, such as pricing risk.

Derivatives are also subject to the risk of market volatility in the underlying security, index or financial obligation.

The Fund is permitted to use derivatives to manage the Fund's interest rate risk associated with the borrowings of the Fund. However, the Fund is not permitted to use derivatives for gearing or for speculative activities.

Risk mitigation strategies also aim to minimise the impact of rising interest rates. For example, if the Fund fully hedges its borrowings (i.e. fixes the interest rate on its borrowings) and the prevailing interest rates rise, then the Fund is protected from paying the higher interest rate. However, the Fund's unit price may be more volatile if it is fully hedged, reflecting the market value of any change from the interest rate that has been fixed.

Unforeseen risks

Unforeseen extraordinary events such as natural phenomena, pandemics, attacks or other like events may affect the Fund's assets or the underlying funds in which the Fund invests.

These are events for which insurance cover is either not available, or the Fund does not have cover. The performance of the Fund may be adversely affected where any unforeseen event results in losses to Fund assets due to uninsurable risks, uninsured risks or under-insured risks, or the cost of the insurance premiums being in excess of those forecasts. Any failure by an insurer or re-insurer may also adversely affect the Fund's ability to make claims under an insurance policy. These occurrences may result in a loss of capital, in turn reducing the price of Units and amounts that may be available for distribution by the Fund. The Fund aims to manage these risks to the extent possible by maintaining appropriate insurance cover and reviewing the cover recurrently.

Market risk

In addition to the above risks, listed property investments are impacted by broader market factors (such as interest changes and share market sentiment), similar to equity investments.

Section 9: Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) Moneysmart** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs summary

ASA Diversified Property Fund		
Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs¹		
Management fees and costs The fees and costs for managing your investment ²	Base management fee² 0.65% p.a. of the gross asset value of the Fund. Plus	The base management fee is calculated and accrued daily but paid monthly in arrears from the assets of the Fund. The amount of this fee can be negotiated with wholesale clients. ²
	Recoverable expenses³ Estimated to be 0.27% of the average gross asset value of the Fund based on the 12 months to 30 June 2024. Plus	Recoverable expenses are accrued as and when incurred by the Fund and therefore the amount recovered each month may vary. Recoverable expenses are paid monthly in arrears from the assets of the Fund.
	Indirect costs³ Estimated to be 0.00% of the average gross asset value of the Fund based on the 12 months to 30 June 2024. Plus	Payable from the assets of the Fund, or the assets of interposed vehicles in which the Fund invests, as and when incurred.
	Acquisition fee 1.00% of the value of the purchase price of real property assets Plus	Payable out of the assets of the Fund upon the completion of an acquisition of real property assets.
	Removal/retirement fee 1.00% of the gross asset value of the Fund	Payable out of the assets of the Fund upon the removal / retirement of the Responsible Entity.
Performance fees Amounts deducted from your investment in relation to the performance of the product	The estimated 5-year average performance fee is 0.40% of the gross asset value of the Fund ⁴ .	The performance fee is calculated and accrued daily and, where the performance criteria ⁵ are met, is payable within 15 days, out of the assets of the Fund, either in cash or by the issue of Units.
Transaction costs The costs incurred by the scheme when buying or selling assets	Estimated to be 0.51% p.a. of the Fund gross asset value based on the 12 months to 30 June 2024.	Transaction costs are payable from the assets of the Fund, or the assets of interposed vehicles in which the Fund invests, as and when incurred.
Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)⁶		

ASA Diversified Property Fund		
Type of fee or cost	Amount	How and when paid
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	Buy spread: 0.50% Sell spread: 0.50%	These are the amounts recovered by the Fund when you transact. Buy-sell spreads are included in the application and withdrawal prices and effectively increase the amount you pay when you buy units and reduce the amount you receive when you sell units.
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Switching fee The fee for changing investment options	Nil	Not applicable

1. The individual components of the management fees and costs are discussed in more detail in under the heading 'Additional explanation of fees and costs'.
2. The base management fee may be negotiated in certain circumstances. For more information see 'Differential fees' under the heading 'Additional explanation of fees and costs'.
3. The recoverable expenses and indirect costs are based on the 12 months to 30 June 2024.
4. Performance fees are calculated on a 5-year average based on an accruals basis for the 5 years to 30 June 2024.
5. The performance fee criteria are set out under 'Performance fee' below.
6. Fees may be payable to your financial advisor. Such fees are not included in this table. For more information see 'Advisor remuneration' under the heading 'Additional explanation of fees and costs'.

Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs in the ASA Diversified Property Fund for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE— ASA Diversified Property Fund		BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 ¹ DURING YEAR
Contribution Fees ²	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	1.73% pa ³	And , for every \$50,000 you have in the ASA Diversified Property Fund you will be charged or have deducted from your investment \$865 each year.
PLUS Performance fees ⁴	0.74% pa ³	And , you will be charged or have deducted from your investment \$370 in performance fees each year.
PLUS Transaction costs	0.96% pa ³	And , you will be charged or have deducted from your investment \$480 in transaction costs.
EQUALS Cost of ASA Diversified Property Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$1,715* . What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply:

Please note:

1. This example assumes that the contribution of \$5,000 is made at the end of the year, and therefore no management costs for the contribution have been included.
2. A buy/sell spread may apply to investments in and out of the Fund (see "Transaction costs" in the Additional explanation of fees and costs below).
3. The management fees and costs, transaction costs and performance fees in the example of annual fees and costs are calculated on a net asset value basis (rather than a gross asset value basis as outlined in the Fees and cost summary above) and incorporate the effect of gearing. What your investment in the Fund costs you will also depend on the fees you negotiate with the Fund (where applicable) (see "Differential fees" in the Additional explanation of fees and costs below).
4. Estimated performance fees are not a guarantee of future performance and actual performance may differ

The example above is illustrative only.

Additional explanation of fees and costs

Following is a summary of the Fund's estimated management fees and costs.

Estimated management fees and costs calculations

The table below shows the estimated management fees and costs for the Fund based on the 12 months to 30 June 2024. It provides a summary of the Fund's estimated management costs based on the Fund's average gross asset value compared to the estimated management costs calculated on the Fund's average net asset value. **Please note that past costs are not a reliable indicator of future costs.**

	Gross asset value p.a.	Net asset value p.a.
Estimated Base management fee ¹	0.65%	1.23%
Plus: Estimated indirect cost based on the 12 months to 30 June 2024	0.00%	0.00%
Plus: Estimated Recoverable expenses based on the 12 months to 30 June 2023	0.27%	0.50%
Total management fees and costs³	0.92%	1.73%
Estimated 5-year average performance fee ²	0.40%	0.74%
Net transaction costs based on the 12 months to 30 June 2024	0.51%	0.96%

1. The base management fees calculated on a net asset value basis is an estimate. However, the base management fee calculated on a gross asset value basis is the actual amount incurred by an investor.
2. The estimated performance fees are calculated on a 5-year average based on an accruals basis, based on the 5 years to 30 June 2024. Estimated performance fees are not a guarantee of future performance and actual performance may differ. For more information about the calculation of the performance fee, see 'Performance fee' of this section for more information.
3. Total management fees and costs does not include (a) acquisition fee and (b) removal/retirement fee, as neither fee was not payable for the year ended 30 June 2024.

Base management fee

Under the Fund's Constitution, we are entitled to receive up to 1.00% p.a. (before GST) of the gross asset value of the Fund as a base management fee in performing our duties in relation to the Fund.

We have agreed to charge a reduced base management fee of 0.65% p.a. of the Fund's gross asset value.

Subject to legal requirements, we are entitled to change fees with prior notice to you in this section.

Indirect costs

Indirect costs are generally amounts that we know, or estimate, will reduce the Fund's returns. The costs are paid from the Fund's assets, or the assets of interposed vehicle in which the Fund may invest from time to time. Typically, an interposed vehicle will be a trust in which the Fund has invested.

Indirect costs of the Fund are the indirect costs of underlying interposed vehicles.

Recoverable expenses

We are entitled under the Fund's Constitution to reimbursement for, or have paid by the Fund, all expenses and associated taxes we incur in the proper performance of our duties.

Recoverable expenses are expenses generally incurred in the day-to-day operation of a Fund and include, for example: registry costs, legal, custodian services, compliance and related administration functions, accounting, printing, audit and asset management related fees, including related party property management services (see section 12 and the Benchmark Notice). These costs are shown in the fees and costs summary under 'Fees and other costs' table above.

Recoverable Expenses are accrued as and when incurred by a Fund, and therefore the amount recovered each month may vary.

This estimate does not include costs for:

- expenses that would normally be incurred by a direct investor that relate to the buying and selling, maintenance, development and leasing of assets;
- abnormal operating expenses which are due to irregular events such as the cost of running investor meetings; and
- costs of borrowing, including arrangement, establishment and interest costs.

Where the Fund invests in other funds managed by us

The Fund may invest in other funds or investment companies (interposed vehicles) managed or operated by us or our associates. Where this occurs, management fees will not be taken from each fund. Instead, our management fees will be adjusted to reflect the Fund's fees described above.

For example, if the Fund invested in a fund managed by ASA which charged a management fee of 0.30% p.a., the Fund would reduce its base management fee to 0.00% on that asset.

Where the Fund invests in other funds managed by an external party

Where the Fund invests in other funds or investment companies (interposed vehicles) managed by third parties not related to us, any management fees charged by those parties will be reflected in the performance of the Fund and our management fee will not be adjusted to reflect the management fees of such interposed vehicles.

Performance fee

The Performance Fee is equal to 20% of the outperformance of an Internal Rate of Return (IRR) of 10% p.a.

The IRR is the annualised, compound rate of return received by investors taking into account all income and capital cash flows over the term of the investment.

The Performance Fee will be calculated by comparing new capital from investors to distribution payments and redemption of units made to investors.

The Performance Fee (if any) will be accrued in the unit price of the Fund in accordance with general accounting practices and will be paid to us based on the net assets of the Fund.

The Performance Fee is calculated on a daily basis but paid at 30 June each year if the relevant criteria are met.

We must earn back underperformance of the prior year (if any) before we are entitled to collect the performance fee. The accrued Performance Fee may also be payable if we are replaced as the Responsible Entity for the Fund. In all instances, the IRR must exceed 10.0% p.a. for a Performance Fee to be payable.

Example of the performance fee

An example of the calculation of the Performance Fee is provided below for the purpose of illustrating how the Performance Fee works.

Assume that the Fund raised \$1.00 per Unit from investors at the start of the financial year, paid monthly distributions totaling 6.7 cents per Unit for the year and the Unit price at the end of the financial year was \$1.05 (before the deduction of the performance fee).

The IRR would be 12.06% and the outperformance in excess of the 10% p.a. return would be 2.00 cents per Unit. The Performance Fee payable to the Responsible Entity would be calculated as 20% of 2.00 cents per Unit, which is a fee of \$0.0040 per unit payable to the Responsible Entity.

For an investor with 50,000 Units, the Performance Fee in this example would be \$200.16 (excluding GST).

The above example is provided for illustrative purposes only and does not represent any actual or prospective performance of the Fund. It is not possible to estimate the actual performance fee payable as we cannot accurately forecast the Fund's performance. We do not provide any assurance that the Fund will achieve any performance shown and you should not rely on this in determining whether to invest in the Fund. You should also be aware that for periods of high outperformance, the performance fee may be substantial.

Estimated performance fee

The Fund's estimated 5-year average performance fee is 0.74% p.a. of the net asset value of the Fund, based on our reasonable estimate having regard to the Fund's performance and the Fund's average asset value over the past five years to 30 June 2024.

Estimated performance fees do not represent the actual performance fees you may incur and are an estimate only, with consideration to recent historic investment performance and recent changes in the net asset value of the Fund.

Estimated performance fees are not a guarantee of future performance and actual performance may differ.

The exact amount of performance fees charged by the Fund is dependent on a number of factors, particularly the timing and

relative value of periods of out-performance. Actual performance fees charged will vary, depending on the returns of a Fund and may be higher or lower than the estimated performance fees currently disclosed. Generally, the greater the investment performance of the Fund, the greater the performance fee and therefore the greater the overall management costs for the Fund.

Acquisition fee

We are entitled to an acquisition fee for any direct or indirect interest in a property acquired by the Fund, of up to a maximum of 1.00% of the purchase price of real property assets.

Example of the acquisition fee

An example of the calculation of the Acquisition Fee is provided below for the purpose of illustrating how the acquisition fee works.

If a property is acquired by the Fund for a purchase price of \$40 million, then we are entitled to an acquisition fee, calculated as following:

$$(\$40,000,000 \times 1.00\%) = \$400,000$$

The acquisition fee of \$400,000 would then be paid to us after the date the property is acquired by the Fund and is capitalised to the properties book value.

Removal/retirement fee

A removal/retirement fee of up to 1.00% of the gross asset value of the Fund is payable upon the date of removal/retirement of us as Responsible Entity of the Fund and is subject to the proper performance of our duties.

When applicable, this fee is deducted from the assets of the Fund.

Example of the removal/retirement fee

An example of the calculation of the removal/retirement fee is provided below for the purpose of illustrating how the removal/retirement fee works.

If the gross asset value of the Fund on the date of removal/retirement was \$500 million, then Retirement/removal would be calculated as following:

$$\$500,000,000 \times 1.00\% = \$5,000,000$$

The Removal/retirement fee of \$5 million would then be paid to us on the date of the removal/retirement of us as the Responsible Entity.

Transaction costs

In managing the investments of a Fund or a Fund's underlying investments, transaction costs such as brokerage, settlement costs, clearing costs, stamp duty, buy/sell spreads and other government charges may be incurred. These costs are generally paid from the assets of the Fund and are reflected in the Unit Price. Changes in a Fund's investment portfolio (or when new investments into or redemptions out of the Fund are paid) can also incur fees. Transaction costs are an additional cost to investors and are not included in the 'management costs'.

Transaction costs exclude borrowing costs, property operating costs and certain implicit transaction costs or market impact costs.

Transaction costs incurred from changing the Fund's investment portfolio are generally paid out first from amounts retained through the buy/sell spread. The Fund's buy/sell spread is set out below under 'Buy and sell spreads and estimated transaction costs'.

However, if the amount retained through the collection of a Fund's buy/sell spread is not sufficient to offset transaction costs, these costs are instead paid out of a Fund's assets as and when incurred. In this case, this is an additional cost payable by you.

The table below provides a summary of the estimated transaction costs, of the Fund and its underlying investments, calculated on the Fund's average gross asset value for the 12 months to 30 June 2024.

Please note that past transaction costs are not a reliable indicator of future transaction costs.

Transaction Costs as a % pa of gross asset value	
Gross transaction costs	0.55%
Less: Buy and sell spreads recovered	0.04%
Equals: Net transaction costs borne by the Fund	0.51%

Transaction costs may include:

Buy-sell spreads

Buy-sell spreads are incurred when investors apply for or redeem units in a fund. If the Fund were to buy units in an interposed vehicle, then the associated buy-sell spread will comprise part of the purchase price. In this case, the costs of the buy-sell spread are paid from the assets of the Fund and are reflected in the Unit Price.

Brokerage costs:

The amount that is paid to a broker when securities are bought and sold. Brokerage costs are paid from the assets of the Fund and are reflected in the Unit Price.

Stamp duty

Stamp duty is a tax imposed by State governments in all Australian States and Territories, which is typically triggered by the sale or transfer of real property. Stamp duty is payable at the time the Fund completes the purchase of a real property. It is paid from the assets of the Fund and will be reflected in the Unit Price.

The Fund's underlying investments may also incur transaction costs and these amounts are included in the total 'transaction costs' amounts set out above.

Buy/Sell spread

The buy and sell spread reflects some of the Fund's transaction costs, such as buying and selling Fund assets, in order to issue units or pay redemption proceeds to investors. The buy-sell spread aims to ensure that each investor shares the transactional costs associated with their decision to either invest in or exit the Fund.

The amount is:

- in the case of a buy spread, an extra cost applied on entry to the Fund and the sell spread is a cost applied on exit from the Fund;
- an estimate to cover the costs incurred when buying or selling assets, such as agent fees, legal fees, stamp duty and taxes;
- not an additional fee paid to us but is retained in the Fund to cover those transaction costs; and
- not applied to the reinvestment of distributions.

If the amount retained through the collection of the Fund's buy-sell spread is insufficient to offset transaction costs, then these costs are instead paid out of a Fund's assets as and when incurred and reflected in the Unit Price.

The following buy/sell spreads (which may change from time to time without prior notice) apply:

Buy spread	Sell spread
0.50%	0.50%

If the buy spread and/or sell spread changes, we will notify investors on our website at www.asarep.com/dpf.

Based on the buy and sell spreads noted above, an investment of \$50,000 would incur a buy spread of \$250, and a withdrawal of \$50,000 would incur a sell spread of \$250. This is an example only; it is not an estimate or forecast. We reserve the right to waive the buy or sell spreads.

Other fees, charges and costs

You may also incur infrequent costs directly associated with transactions made on your account, such as Government taxes, stamp duty and bank fees. For example, if your direct debit is rejected and the Fund incurs a bank fee.

These costs will be directly deducted from your account by reducing the number of Units you hold within the Fund. We are unable to estimate these costs until they are incurred.

Differential fees

Subject to applicable law, we may negotiate lower fees in certain circumstances, with certain investors, including with respect to employees of the Responsible Entity (or its related body corporates), investors who are 'wholesale clients' under the Corporations Act, or where we have specified a total period of time during which an investor has held Units. Different fee arrangements may also be negotiated with eligible investors, to the extent permitted under relevant laws, where investors make their investment through a dealer or advisory group, platform or other means that is reasonably expected to result in a cost saving to the Fund. The fees paid by those particular investors will be calculated as the management costs (as set out above) less the Responsible Entity's reasonable estimate of the cost savings for the Fund which are attributable to the nature of that investor's investment. Further information can be obtained by

contacting the Responsible Entity on 1300 553 122 or +613 9909 9909 if calling from overseas.

Fee changes and maximum fees

Fees may increase or decrease for many reasons, including changes in the competitive, industry and regulatory environments or simply from changes in costs. We can change fees without your consent but will provide at least 30 days priorwritten notice of any fee increase.

The maximum fees we are allowed to charge the Fund (before GST) are stated in the Fund's Constitution and are as follows:

- maximum contribution fee: 4.00% of each contribution to the Fund;
- maximum ongoing management fee: 1.00% p.a. of the gross asset value of the Fund; and
- performance fee: 20% of the Fund's outperformance in excess of an IRR of 10% p.a.

The Fund's Constitution does not limit the amount that we can recover for expenses incurred in the proper performance of our duties.

Tax

See Section 10 for more information on tax.

Adviser Remuneration

The Corporations Act 2001 contains provisions which regulate, and in some cases prohibit, payments to financial advisers and intermediaries by product issuers. Any arrangement by us to make payments or provide incentives to financial advisers and intermediaries will be entered into in compliance with the legislation.

You may agree with your financial adviser that advice fees will be paid for financial planning services your financial adviser provides for you. These advice fees are additional to the fees shown in the fees and costs summary, and are paid to your financial adviser, not to us.

Section 10: Tax information

Australian taxation

Certain tax implications of investing in the Fund are explained below. It is intended to be a brief guide only and does not purport to be a complete statement of the relevant tax law, nor does it take into account your individual circumstances. Accordingly, we strongly recommend that you seek independent professional taxation advice on the tax implications of investing in the Fund relevant to your specific circumstances.

The following summary is intended for Australian resident investors and generally applies to investors who hold their investment for the purpose of realising a long-term return (that is, hold their investment on capital account for tax purposes). This summary does not consider the tax implications for those investors who hold their investment in the Fund on revenue account, as an isolated investment made with profit making intent or as trading stock. It is based on our interpretation of the current Australian tax laws at the date of publication of this document, including applicable case law and published guidance by the Australian Taxation Office, which may be subject to change.

While you hold your investments in the Fund

The Fund elected to be an Attribution Managed Investment Trust (AMIT) for tax purposes from the 2018 income year. The Fund itself should not pay tax on the basis that it will attribute trust components to investors each financial year on a fair and reasonable basis. This is generally proportionally based on each Investor's Unit holdings.

You will need to include in your income tax return your share of the Fund's taxable income for each financial year. This applies regardless of whether the distribution is received in cash during that income year or a later year, and may include amounts that have been reinvested.

To assist you to complete your tax return, you will receive an AMIT member annual (AMMA) statement from us. This statement will provide you with the components to be included in your tax return. The sum of these components may differ to the amount of cash distribution you receive.

Tax losses (if any) generated by the Fund cannot be passed onto investors. However, provided specific requirements are satisfied, the Fund should be able to carry forward tax losses, offsetting them against income generated in a later income year.

Dividends

Where a Fund receives franked distributions in relation to investments in Australian equities, you may receive as part of your distribution franking credits (subject to relevant franking credit integrity measures, such as the 45-day holding period rule). These franking credits will not represent part of your cash receipts but will need to be included in your tax return as part of your taxable income. Depending on your individual circumstances, these may be available to offset your tax liability or be paid as a refund.

Foreign income

Where a Fund derives foreign sourced income, Australian tax resident investors may be able to claim a Foreign Income Tax Offset (FITO) against their Australian income tax liability in respect of their share of any foreign tax paid on that income. FITO's not utilised in the income year in which they are derived will be forfeited and cannot be carried forward to a later year.

Capital gains

Where the Fund derives net capital gains to which you become entitled, you may need to include these amounts in your assessable income. Investors will generally be required to double any discounted capital gains. A Capital Gains Tax (CGT) discount may then be available for some investors, as outlined below:

- individual Investors may receive a 50% CGT discount;
- complying superannuation funds may be eligible for a 66.67% discount.

When you withdraw

When you fully or partially withdraw or redeem your investment in the Fund, you are treated as having disposed of your investment in the Fund. As a result, any net gain derived on disposal may be included in your taxable income under the CGT provisions. This may include where you move between investments or transfer your Units in a particular investment to another investor.

An investor will make a capital gain in respect of the disposal of its investment to the extent that the capital proceeds attributable to the disposal exceed the investor's cost base. Alternatively, an investor will make a capital loss in respect of the disposal of its investment to the extent that the capital proceeds attributable to the disposal of the investment are less than the CGT reduced cost base in that investment.

In determining the cost base or reduced cost base of your investment in the Fund, you will need to take into account any returns of capital and in circumstances where the amount of cash distribution is more than your share of the Fund's taxable income in an income year, your CGT cost base of the investment in the Fund should decrease by the difference ('AMIT cost base net amount – excess'). These amounts may have the effect of increasing your capital gain or decreasing your capital loss.

In addition, in circumstances where the amount of cash distribution is less than your share of the Fund's taxable income in an income year, your CGT cost base of the investment in the Fund should increase by the difference ('AMIT cost base net amount – shortfall'). This amount should have the effect of decreasing your capital gain or increasing your capital loss upon disposal of your investment.

The AMMA statement you receive from the Fund will state the amounts that the Responsible Entity reasonably estimates to be the 'AMIT cost base net amount – excess' and the 'AMIT cost base net amount – shortfall'.

Any net capital loss resulting from the disposal of your investment may be able to be used to reduce capital gains derived in that or future income years.

Non-residents

This summary does not consider the Australian income tax implications for non-resident investors. However, it is noted that the Australian tax law imposes obligations on the Fund to withhold tax on distributions paid to non-residents for Australian tax purposes. It is also noted that CGT discount is not available to non-residents for Australian tax purposes.

If you are not an Australian resident for tax purposes, withholding tax will be deducted from your distributions at the prescribed rates. The rates may vary according to the components of the distribution and the country in which you reside.

TFN Withholding Tax

If you are an Australian resident, you may choose whether or not to provide a Tax File Number (TFN) or an Australian Business Number (ABN). If neither is quoted and no relevant exemption information is provided, a Fund is required to withhold tax on your income distributions at the highest marginal tax rate, plus levies.

GST

The acquisition, redemption and transfer of Units in the Fund should not be subject to GST. Distributions made by the Fund should also not give rise to any GST consequences.

Stamp Duty

Stamp duty should not be payable on your acquisition and holding of units in the Fund, provided your interest remains below the relevant percentage threshold set by each State or Territory (either alone or when aggregated with interests held by associated persons or other investors in an associated transaction).

Australian Tax Reform

Australia is in the process of ongoing taxation reform. There is considerable uncertainty as to the breadth and ultimate impact of the reforms. The Responsible Entity for the Fund will continue to monitor the tax reform process and its impact on the Fund. It is an investor's responsibility to monitor tax reform developments that may impact on their investment in the Fund.

Section 11: Debt finance

Under the Fund's Constitution, the Fund has the power to:

- borrow and raise money for the purposes of the Fund and to grant security over the Fund's assets; and
- incur all types of obligations and liabilities.

The Fund's borrowing facility is secured by the Fund's direct property assets.

Use of debt

The Fund currently borrows to finance new and existing assets, to redevelop, refurbish and maintain those assets, and to provide liquidity for operating purposes and managing working capital. Generally, interest costs relating to the borrowings will be met from the earnings of the Fund prior to the payment of distributions to investors.

At the date of this PDS the only interest-bearing liability of the Fund is its borrowing facility.

Refinancing debt

With most refinancing activity there is a risk that the lender may choose not to refinance the facility. If this occurred, the Fund would need to find an alternate lender, which may cost more than the existing lender. In extreme situations if the Fund cannot find an alternate lender, the Fund may lose value from selling assets in poor market conditions in order to repay the borrowed amount.

Our approach is to actively manage the Fund's borrowings in conjunction with the lender(s) to manage this risk. To the best of our knowledge, there are no breaches of loan covenants as at the date of this document.

Ranking of debt

All amounts owed to lenders and to other creditors will rank before each investor's interest in the Fund. The Fund's ability to pay interest, repay or refinance the amount owed upon maturity, and its ability to meet all loan covenants under its borrowing facility is material to its performance and ongoing viability.

Terms of debt

Under the terms of the borrowing facility, provided the Fund obtains prior written consent of the lender(s), there are no terms that may be invoked as a result of investors exercising their rights under the Fund's Constitution. If such consent is not obtained, however, consequences may follow including possible cancellation of the facility and early repayment of amounts owing under the borrowing facility.

Hedging interest rate risk

We maintain a hedging policy that governs the level of hedging for the Fund and controls the risks associated with the use of derivatives. All hedging strategies implemented are also subject to formal approval by a Managing Partner.

We monitor and manage the Fund's hedging position on a mark-to-market basis. Hedging is a very complex area and is generally done to fix some or all of the interest rate relating to the borrowing facility. While hedging is put in place to reduce the volatility of earnings and therefore distributions, hedging generally has the effect of increasing the volatility of the Fund's unit price given that the pricing of the underlying interest rate derivatives change daily.

Details of the Fund's interest rate hedge can be found in the Fund's latest Benchmark Notice.

Gearing ratio

A gearing ratio measures the level of debt finance that is used to purchase properties or manage capital expenditure within the Fund. The gearing ratio shows the extent to which the Fund's total assets are funded by interest bearing liabilities and gives an indication of the potential risks investors face in terms of external liabilities that rank ahead of them.

Gearing magnifies the effect of gains and losses on an investment. A higher gearing ratio means greater magnification of gains and losses and generally greater volatility compared to a lower gearing ratio.

Details on the Fund's gearing ratio can be found in the Fund's latest Benchmark Notice.

Interest cover ratio

An interest cover ratio indicates the ability of the Fund to meet interest payments from earnings. It is an indicator of the Fund's financial health and is a key indicator to assessing the sustainability of, and risks associated with, the Fund's level of borrowing. For example, an interest cover ratio of two times, means that the level of earnings is twice that of interest costs on borrowings, meaning that there are surplus earnings after interest payments which can be used to pay distributions to investors.

An interest cover ratio of one time means that Fund earnings are only sufficient to pay interest on borrowings. Any distributions would either need to be funded from investor capital or alternatively suspended.

Generally, the closer the Fund's interest cover ratio is to one, the higher is the risk of the Fund not being able to meet interest payments from earnings. To mitigate some of this risk, property fund managers may hedge against rises in interest rates to protect the Fund from higher interest costs. In addition, asset management strategies that attract high quality tenants on longer lease terms and tenant diversity aims to ensure that the Fund's level of earnings remains stable and predictable.

Details on the Fund's interest cover ratio can be found in the Fund's latest Benchmark Notice.

Gearing and Interest Cover Policy

We maintain and comply with a written Gearing and Interest Cover policy that governs the:

- level of gearing at an individual credit facility (borrowing facility) level; and
- level of interest cover at an individual credit facility (borrowing facility) level.

The Gearing and Interest Cover Policy outlines record keeping, monitoring and reporting requirements.

For further information or to obtain a copy of the Gearing and Interest Cover Policy please call us on +61 3 9221 6215.

Gearing ratio range

Our Gearing and Interest Cover Policy is to target a gearing ratio range for the Fund between 35% and 45%. The maximum gearing ratio for the Fund under the Gearing and Interest Cover Policy is 60%.

The Fund's borrowing facility covenant limits the gearing ratio to 55%.

These parameters may change from time to time. Refer to the Fund's latest Benchmark Notice.

Minimum interest cover ratio

The minimum interest cover ratio for the Fund under the Gearing and Interest Cover Policy is 1.25 times (calculated as net property income divided by interest expense on borrowings in accordance with ASIC's RG46 disclosure principles formula).

The Fund's borrowing facility covenant requires a minimum interest cover ratio of 1.75 times, noting the calculation method for the interest cover ratio under the borrowing facility is different from ASIC's RG46 disclosure principles formula.

Interest capitalisation

The Fund may capitalise interest on borrowings where development works are being undertaken.

Interest is capitalised against the relevant development property's book value.

Upon completion of a development, there is a risk that the book value may exceed the property's independent valuation. If this occurs, the value of your investment may be impacted.

We aim to mitigate the risk of loss by estimating the amount of interest to be capitalised for any particular project and incorporating the amount into feasibility assessments.

Section 12: Other information

If you invest or withdraw through a masterfund or Investor Directed Portfolio Service ('IDPS')

If you are investing into the Fund or withdrawing from the Fund (at a time that withdrawals are available) through a masterfund or IDPS (or 'wrap platform'), in most cases you do not yourself become an investor in the Fund. Instead, as the masterfund/IDPS operator is investing on your behalf, it acquires the rights of an investor and certain features of the Fund may not apply to your investment. Examples are minimums for investments and withdrawals, processing times and, importantly, the cooling off rights (refer to 'Changing your mind' above). You should ensure that you receive full details of these from the masterfund/IDPS operator.

Further, some provisions of the Fund's Constitution will not be directly relevant to you. For example, you will generally not be able to attend meetings, or withdraw investments directly. You will receive reports from the masterfund/IDPS operator, not us. Enquiries about the Fund should be directed to your masterfund/IDPS operator.

Usually, in the case for an investment made through a masterfund/IDPS operator the terms and conditions you have agreed with the masterfund/IDPS operator will determine your rights and obligations with respect to that masterfund/IDPS operator. Accordingly, the masterfund/IDPS operator may exercise (or decline to exercise) any of its rights with respect to you in accordance with those terms.

We do not keep personal information about investors who invest in the Fund through a masterfund or IDPS.

Property Valuation policy

We maintain and comply with a written Property Valuation Policy.

Our property valuation policy requires that we appoint valuers which are:

- registered or licensed in the relevant state, territory or overseas jurisdiction in which the property is located (where a registration or licensing regime exists), or otherwise be a member of an appropriate professional body in that jurisdiction;
- independent; and
- conducted in accordance with industry standards.

Our property valuation policy sets out procedures:

- for dealing with any conflicts of interest; and
- to rotate and diversify valuers.

Our property valuation policy requires that independent valuations are obtained:

- at least once every two years, or on completion of construction/development for assets under development;
- within two months after the directors form a view that there is a likelihood that there has been a material change in the value of the property;

- before a property is purchased:
 - on an 'as is' and 'as if complete' basis for development assets;
 - on an 'as is' basis for all other direct property; and
- where a property has been contracted for sale, the contracted sale price may be adopted instead of the last independent external valuation.

We take an active management approach and may test asset values on market. At times, we may enter arrangements at arm's length with third parties which may impact the value of assets within the portfolio including, but not limited to, put and call options in respect of all or part of an asset within the portfolio. If the value of an asset is impacted in this way, the value may replace the last independent valuation obtained.

For further information or to obtain a copy of the Property Valuation Policy please contact us on 1300 553 122 or +613 9909 9909 if calling from overseas.

Conflicts and Related Party Transactions Policy

There is a risk that related party transactions could be assessed and reviewed less rigorously than other transactions with non-related parties.

We maintain and comply with a written Conflicts and Related Party Transactions Policy to manage the risk of any actual or perceived conflict of interest as a result of a related party transaction. Related party transactions with ASA Group entities are reviewed, approved and monitored by senior management with clearly identified governance policies and guidelines.

Approvals in relation to conflict of interest and related party transactions are documented.

For further information about the Management of Conflicts and Related Party Transactions Policy please contact us.

Related party transactions

We have appointed ASA Operations 2 Pty Ltd ACN 675 795 356 (ASA Operations) (a related party) to provide some property management services to the Fund.

We have also appointed ASA Operations to provide compliance and accounting services to the Fund which is subject to annual review.

ASA Operations is a wholly owned subsidiary of ASA Real Estate Partners Pty Ltd and is a member of the ASA Group. The arrangements with ASA Operations adhere to the ASA Group policies relating to related party transactions.

ASA Operations

ASA Operations may, under a written arrangement, provide some of the following services to the Fund as nominated from time to time:

- strategic advice on property acquisitions and sales or arranging the sale or acquisition of property assets;
- management of premises;
- debt arranging, debt structure advice, debt facility negotiation and debt management;
- accounting services;
- compliance services;
- leasing services; and
- property and asset management services and project supervision.

The appointment of ASA Operations for these services is not exclusive and ASA Operations may engage external service providers to undertake these functions.

Investments

ASA and its subsidiaries (related parties) may invest in the Fund and the Fund may invest in related parties from time to time.

Related party transactions on commercial terms and conditions and on an arm's length basis

Investor approval is not required for these transactions between the related party entities described in this PDS.

All related party transactions are carried out on an arm's length basis and are reviewed, approved and monitored by senior management within the ASA Group and are in line with the Responsible Entity's Conflict of Interest and Related Party Transaction Policy which can be found on the Fund's website.

Fees and other payments made to the entities within the ASA Group to provide various services are in line with the ASA Group policies relating to related party transactions.

All related party arrangements described in this PDS adhere to ASA Group policies relating to related party transactions.

Updates to related party transactions and further information

As appropriate, we will provide ongoing updates of material service engagements and financial benefits that are paid to related parties through the Benchmark Notice.

The value of related party arrangements is reported yearly as part of the Fund's Annual Report and also in the Fund's Benchmark Notice which can be found on the Fund's website. Alternatively, a free paper copy is available by calling us on 1300 553 122 or +613 9909 9909 if calling from overseas.

For further information about the ASA Group policies relating to related party transactions please contact us.

Labour standards or environmental, social or ethical considerations

The Responsible Entity's Responsible Investing Policy sets out guidelines to selecting, managing or realising direct property assets, and specifically covers the following considerations.

Consideration	Objective
Environmental	To minimise the environmental impact from operations and development.
Labour standards	To ensure equal employment opportunity and the provision of a safe work environment.
Social	To enhance the work environment for occupants and workers.
Governance	To operate under a well-established set of corporate governance policies which ensures compliance and optimises performance.
Ethical	To act with honesty and integrity.

The Responsible Investing Policy guidelines are considered on a property by property basis and may be applied differently within the context of a property's sector, geographical and market attributes. Due to these differences, there is no predetermined methodology for the application of the Responsible Investing Policy to particular direct property assets. This means that in some circumstances the above factors may not be taken into account by the Responsible Entity in making investment decisions about new or existing properties for the Fund. An investment in the Fund is not suitable for investors with particular objectives in respect of environmental factors, labour standards, or social or governance considerations.

For further information or to obtain a copy of the Responsible Investing Policy please call us on 1300 553 122 or +613 9909 9909 if calling from overseas.

Constitution

The Fund is a registered managed investment scheme governed both by a Constitution and a compliance plan.

The statements in this PDS only provide a summary of some of the provisions of the Constitution. If you'd like to inspect a copy of the Fund's Constitution please call us 1300 553 122 or +613 9909 9909 if calling from overseas.

The Responsible Entity

The Responsible Entity is subject to the provisions of the Constitution and the Corporations Act 2001. The Responsible Entity is responsible for administration and management of the Fund and sets the investment policy and objectives.

Any investment manager appointed by the Responsible Entity will be entitled to receive fees for investment management functions.

The Responsible Entity is entitled to the benefit of various indemnities under the Fund's Constitution, which means that it has limited its liability for acting as the Responsible Entity.

Personal Information

The Responsible Entity may collect personal information from Investors as part of the application process or during the administration of the Fund.

The Responsible use this information to establish and manage that investment for you. If you do not provide the Responsible Entity with your contact details and other information, then it may not be able to process your application to invest in the

Fund.

Under the *Privacy Act 1988* (Cth), you can access personal information about you held by the Responsible Entity, except in limited circumstances. Please let the Responsible Entity know if you think the information is inaccurate, incomplete or out of date.

The Responsible Entity may disclose Investors' personal information to external service providers engaged to supply administration, financial or other services, and anyone that Investors have authorised (including an Investor's custodian or financial adviser) or if required by law.

Under various laws and regulatory requirements, the Responsible Entity may have to pass on certain information to other organisations, such as the Australian Taxation Office (**ATO**) or the Australian Transaction Reports and Analysis Centre.

By applying to invest, you give the Responsible Entity permission to pass information it holds about you to other organisations, including those involved in helping it administer the Fund, or where they require it for the purposes of compliance with anti-money laundering and counter terrorism financing laws or in connection with the holding of application moneys.

The Responsible Entity may also use your information to provide you with details of future investment offers made by it. You will be able to opt out of receiving notification of these offers.

The Responsible Entity's privacy policy is available on our website www.asarep.com/dpf or a free paper copy is available by calling us on 1300 553 122 or +613 9909 9909 if calling from overseas.

Anti-Money Laundering and Counter Terrorism Financing

The Responsible Entity is required to comply with the *Anti-Money Laundering and Counter Terrorism Financing Act 2006* (Cth) (**AML/CTF Law**). This means that the Responsible Entity will require a potential Investor to provide personal information and documentation in relation to their identity when they invest in the Fund. The Responsible Entity may need to obtain additional information and documentation from the potential Investor to process their application or subsequent transactions or at other times during their investment.

The Responsible Entity may need to identify:

- (a) an Investor prior to issuing Units. The Responsible Entity will not issue Units until all relevant information has been received and a potential Investor's identity has been satisfactorily verified;
- (b) an Investor's estate – if an Investor dies while they are the owner of Units, the Responsible Entity may need to identify the Investor's legal personal representative prior to redeeming Units or transferring ownership; and
- (c) anyone acting on a potential Investor's behalf, including their power of attorney.

In some circumstances, the Responsible Entity may need to re-verify this information.

By applying to invest in the Fund, a potential Investor also acknowledges that the Responsible Entity may decide to delay or refuse any request or transaction (including payment of distributions), including by suspending the issue or withdrawal of Units, if it is concerned that the request or transaction may breach any obligation of, or cause the Responsible Entity to commit or participate in an offence under, any AML/CTF Law, and the Responsible Entity or any of its related bodies corporate will incur no liability to the potential Investor if it does so.

In order to comply with AML/CTF Law, the Responsible Entity may be required to disclose information that the Responsible Entity holds about the potential Investor or any beneficial owner of investments to third parties, including their related bodies corporate or relevant regulators of AML/CTF Law.

Automatic Exchange of Information (AEOI)

We intend to meet any requirements imposed on the Fund under Australian legislation designed to give effect to the AEOI regimes.

Australia's obligations under AEOI regimes include legislation designed to give effect to the Foreign Account Tax Compliance Act (**FATCA**) and the Organisation for Economic Co-operation and Development's (**OECD**) Common Reporting Standard (CRS). As such, we may collect certain information from you; report payments made in respect of your investment and retain information to meet record keeping requirements. It is recommended you consult with your tax adviser to discuss the impact of these AEOI regimes may have on you.

Keeping you informed about your investment

To help keep you informed of your investment, we will provide you the following:

Scan and email to: registry@registrydirect.com.au

Step 4 Make your payment

Please refer to section 4 of the application form and follow the instructions on how to pay the application amount.

Your application cannot be processed until all relevant identification documents and cleared funds are received.

IMPORTANT INFORMATION

Please ensure all fields are completed. If you do not complete all relevant sections your application may be rejected and returned to you for completion, resulting in a delay in processing your application.

If you have any questions as you complete this form, please refer to the FAQs of this form, or contact us on 1300 553 122.

SECTION A: DDO Obligations

The following questions may assist ASA Funds Management Limited in meeting its regulatory obligations by determining whether this financial product is being offered to the stated target market.

The below only needs to be answered where you are a direct [retail] investor (i.e. does not apply to indirect or intermediated investments such as those made by platforms, custodians, etc).

Was this investment made based on personal advice received from your financial adviser?

☐ **Yes** - Please ensure that details of your financial adviser are completed in section 8

☐ **No** - Please complete the questions below:

Please read and answer the following questions carefully: It is important for you to consider if the fund you are applying to invest in is in line with your needs and objectives for the portion of your investment portfolio that you intend to invest in this fund. In other words, the questions below should be answered having regard to what you are seeking from this particular investment - not what you may be seeking more generally from your overall investment portfolio as a whole. You should answer these questions based on what you are seeking from an investment (including your tolerance for risk) and your own situation, rather than just what you understand the features of this fund to be. If you do not know how to answer a question, or what you are seeking from the investment, you should consult your financial adviser.

All financial products provide different features, objectives, risks and return profiles.

You can understand more about the specific objectives and outcomes that the fund seeks to accomplish and to determine whether the fund is appropriate for your needs by consulting the fund's PDS and [Target Market Determination](#)

We reserve the right to refuse your application.

A. What is your primary investment objective in relation to this investment? (select only one option)

☐ You are seeking an investment which provides Capital Growth

Capital Growth, also known as capital appreciation or capital gain, refers to an increase in the value of an asset over time. Capital Growth is not guaranteed, and the value of an investment can also decrease, resulting in capital losses. You should consider the amount of risk you are willing to accept to achieve a capital growth, (or loss) outcome. *If you are primarily seeking capital growth with some income, please select Capital Growth for Question A, and Yes for Question B. If you are instead seeking primarily income (and this is a more important objective to you than Capital Growth) please select Income Distribution for this Question A.*

☐ You are seeking an investment which provides Capital Preservation

A Capital Preservation strategy is a strategy employed by certain types of investment funds with the primary objective of protecting the capital invested. Generally, funds designed to provide capital preservation have a lower risk profile and are less volatile than growth investments. You should consider if you are willing to accept lower returns (growth or income) as a result of choosing a fund with a lower risk profile.

☐ You are seeking an investment which provides Income Distribution

Income Distribution refers to the income generated from the assets within a fund that is regularly paid out or distributed to investors periodically. The level of income generated will typically change each period and there is no guarantee of income being available each period.

B. Are you seeking a source of supplemental income (which may not be regular or recurrent) in addition to the above investment objective? (select only one option)

Note: If your primary objective is Capital Growth or Capital Preservation, but you are also seeking the potential for income supplemental to those objectives, select 'Yes'. If Income Distribution is your primary investment objective, please select Income Distribution in Question A, and 'No' for Question B.

☐ **Yes**

☐ **No**

C. What is your investment time frame in relation to this investment? (select only one option)

- ☐ Equal to 7 years or more (i.e. Long term)
- ☐ Equal to 5 years but less than 7 years (i.e. Medium to long term)
- ☐ More than 2 years but less than 5 years (i.e. Medium term)
- ☐ Up to and including 2 years (i.e. Short term)

D. Under normal circumstances, within what period do you expect to be able to access your funds for this investment? (select only one option)

- ☐ At ASA Funds Management Limited's discretion
- ☐ Within ten years of the request
- ☐ Within five years of the request
- ☐ Within one year of the request
- ☐ Within three months of the request
- ☐ Within one month of the request
- ☐ Within one week of the request

E. In relation to this investment, which investment risk and return profile best describes you? (select only one option)

We note again, that this question is in relation to this investment in particular, and not to your overall risk and return profile. In other words, what role are you expecting the fund to play in your overall portfolio.

☐ **I am seeking a fund with a low risk and return profile:**

You are looking for an investment that is low risk in nature (e.g. you have the ability to tolerate up to one negative return over a 20-year period and you are comfortable with a low target return from this investment. Funds designed to provide low risk and return typically provide capital preservation and invest in cash or cash like investments).

☐ **I am seeking a fund with a medium risk and return profile:**

You are looking for an investment that is moderate or medium risk in nature (e.g. you have the ability to tolerate up to four negative returns over a 20-year period and you are comfortable with a moderate target return from this investment. Funds designed to provide a medium risk and return are typically invested in defensive assets, such as fixed income products).

☐ **I am seeking a fund with a high risk and return profile:**

You are looking for an investment that is higher risk in nature (e.g. you have the ability to tolerate up to six negative returns over a 20-year period in order to achieve a higher target return from this investment. Funds with a high risk and return are typically invested in growth assets which include shares and property investments).

☐ **I am seeking a fund with a very high risk and return profile:**

You are looking for an investment that is very high risk in nature (e.g. you have the ability to tolerate six or more negative returns over a 20-year period as you are seeking to maximise returns and you can accept higher potential losses. Products with Very High risk and return are typically higher conviction portfolio such as concentrated share funds, hedge funds and other growth alternative assets).

☐

I am seeking a fund with an extremely high risk and return:

You are looking for an investment that is extremely high risk in nature (e.g. you can accept significant volatility and losses as you are seeking to obtain accelerated returns (potentially in a short time frame). Products with an extremely high risk and return profile are typically speculative investments in niche asset classes such as crypto assets).

F. What percentage of your total investable assets are you directing into this fund (i.e. the total assets you have available for investment, excluding your residential home)? (select only one option)

- ☐ Satellite Allocation (up to 10%)
- ☐ Minor Allocation (up to 25%)
- ☐ Core Component (up to 50%)
- ☐ Major Allocation (up to 75%)
- ☐ Solution/Standalone (up to 100%)

G. Where did you obtain your Application form? (select only one option)

- ☐ Fund Manager Website
- ☐ Financial Adviser
- ☐ Referred by a Friend / Colleague
- ☐ Advertisement
- ☐ Other

10. Global Tax Reporting Requirements (CRS/FATCA)

Why you need to complete this section?

The Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standard (CRS) are regulatory requirements that aim to deter tax evasion by US and other foreign taxpayers. The Australian and a number of other foreign Governments have an agreement which requires us to obtain certain information from investors, including taxation information. You may be liable to a penalty if you provide information that is false or misleading in a material particular. We may decide not to open an account without first receiving the required information. For more information, visit www.ato.gov.au

If you are unsure of any of the answers, please contact a legal or accounting professional.

10.1 Tax Residence - Individual/Sole Trader

HELP - Tell me about tax residence

You can be a resident of more than one country for tax purposes. Whether you are tax resident of a particular country for tax purposes is often based on the amount of time you spend in a country and the location of your residence and/or place of work. If you pay tax or have a tax liability somewhere, you are probably a tax resident there. Dual citizenship often brings dual tax residency.

It depends on the country. For the US, tax residency can be as a result of citizenship or residency for tax purposes. If you're unsure, ask someone who knows, usually your accountant.

10.1.1 Individual - Investor 1

Are you a US resident for tax purposes?

☐ **No**

☐ **Yes** - Please tell us your TIN

HELP - What is a TIN?

This is short for Taxpayer Identification Number, an identification number issued or used by tax authorities. In Australia, the equivalent is the tax file number (TFN). For the US, it could for example be a US Social Security Number, a US Individual Taxpayer Identification Number or a US Employer Identification Number. In other countries, it may have a different name.

Are you a resident of any other country for tax purposes? Other than the US or Australia?

☐ **No**

☐ **Yes** - Please tell us which ones, using the following table

HELP - No TIN? Reasons we accept are:
Reason A: The country of tax residency does not issue TINs to its tax residents
Reason B: The entity/individual has not been issued with a TIN
Reason C: The country of tax residency does not require the TIN to be disclosed

Country or jurisdiction of tax residency	TIN	No TIN? Which reason? If Reason B has been selected please provide an explanation. See above HELP box.

Application | SMSF

WHO SHOULD COMPLETE THIS FORM?

This application form is for investments made by trustees of Self Managed Superannuation Funds (SMSF).

This application form relates to the application for units in the ASA Diversified Property Fund (ARSN 106 724 038) as described in the PDS dated 31 October 2024 issued by ASA Funds Management Limited (ACN 079 538 499, AFSL No. 234455), as the responsible entity of the ASA Diversified Property Fund. This form must be accompanied by the PDS when provided to any person.

HOW TO COMPLETE THIS FORM

Step 1 Before submitting this form, please read the Product Disclosure Statement (PDS) available on our website www.asarep.com/dpf or if you are unable to access the link or print the document, contact us on 1300 553 122.

Units in a fund will only be issued following acceptance of an application form issued with the relevant PDS, with all required documents attached.

Online applications: Please complete online and then print to sign using a black pen.

Manual applications: Please print, use black pen and write in BLOCK letters. If you make an error do not use correction fluid, instead, cross out your error and initial your changes.

Note: Please ensure all fields are completed including those in sections A, B and C.

Step 2 Tell us your foreign tax status

Please complete the Global Tax Reporting (FATCA/CRS) information in section 10

Step 3 Sign and send your documents to our Administrator.

Please ensure you sign section 15 of the form in accordance with the instructions provided

Send by post:

Registry Direct
PO Box 572
Sandringham VIC 3191

Scan and email to: registry@registrydirect.com.au

Step 4 Make your payment

Please refer to section 7 of the application form and follow the instructions on how to pay the application amount.

Your application cannot be processed until all relevant identification documents and cleared funds are received.

IMPORTANT INFORMATION

Please ensure all fields are completed. If you do not complete all relevant sections your application may be rejected and returned to you for completion, resulting in a delay in processing your application.

If you have any questions as you complete this form, please refer to the FAQs of this form, or contact us on 1300 553 122.

SECTION A: DDO Obligations

The following questions may assist ASA Funds Management Limited in meeting its regulatory obligations by determining whether this financial product is being offered to the stated target market.

The below only needs to be answered where you are a direct [retail] investor (i.e. does not apply to indirect or intermediated investments such as those made by platforms, custodians, etc).

Was this investment made based on personal advice received from your financial adviser?

☐ **Yes** - Please ensure that details of your financial adviser are completed in section 8

☐ **No** - Please complete the questions below:

Please read and answer the following questions carefully: It is important for you to consider if the fund you are applying to invest in is in line with your needs and objectives for the portion of your investment portfolio that you intend to invest in this fund. In other words, the questions below should be answered having regard to what you are seeking from this particular investment - not what you may be seeking more generally from your overall investment portfolio as a whole. You should answer these questions based on what you are seeking from an investment (including your tolerance for risk) and your own situation, rather than just what you understand the features of this fund to be. If you do not know how to answer a question, or what you are seeking from the investment, you should consult your financial adviser.

All financial products provide different features, objectives, risks and return profiles.

You can understand more about the specific objectives and outcomes that the fund seeks to accomplish and to determine whether the fund is appropriate for your needs by consulting the fund's PDS and [Target Market Determination](#)

We reserve the right to refuse your application.

A. What is your primary investment objective in relation to this investment? (select only one option)

☐ You are seeking an investment which provides Capital Growth

Capital Growth, also known as capital appreciation or capital gain, refers to an increase in the value of an asset over time. Capital Growth is not guaranteed, and the value of an investment can also decrease, resulting in capital losses. You should consider the amount of risk you are willing to accept to achieve a capital growth, (or loss) outcome. *If you are primarily seeking capital growth with some income, please select Capital Growth for Question A, and Yes for Question B. If you are instead seeking primarily income (and this is a more important objective to you than Capital Growth) please select Income Distribution for this Question A.*

☐ You are seeking an investment which provides Capital Preservation

A Capital Preservation strategy is a strategy employed by certain types of investment funds with the primary objective of protecting the capital invested. Generally, funds designed to provide capital preservation have a lower risk profile and are less volatile than growth investments. You should consider if you are willing to accept lower returns (growth or income) as a result of choosing a fund with a lower risk profile.

☐ You are seeking an investment which provides Income Distribution

Income Distribution refers to the income generated from the assets within a fund that is regularly paid out or distributed to investors periodically. The level of income generated will typically change each period and there is no guarantee of income being available each period.

B. Are you seeking a source of supplemental income (which may not be regular or recurrent) in addition to the above investment objective? (select only one option)

Note: If your primary objective is Capital Growth or Capital Preservation, but you are also seeking the potential for income supplemental to those objectives, select 'Yes'. If Income Distribution is your primary investment objective, please select Income Distribution in Question A, and 'No' for Question B.

☐ **Yes**

☐ **No**

C. What is your investment time frame in relation to this investment? (select only one option)

- ☐ Equal to 7 years or more (i.e. Long term)
- ☐ Equal to 5 years but less than 7 years (i.e. Medium to long term)
- ☐ More than 2 years but less than 5 years (i.e. Medium term)
- ☐ Up to and including 2 years (i.e. Short term)

D. Under normal circumstances, within what period do you expect to be able to access your funds for this investment? (select only one option)

- ☐ At ASA Funds Management Limited's discretion
- ☐ Within ten years of the request
- ☐ Within five years of the request
- ☐ Within one year of the request
- ☐ Within three months of the request
- ☐ Within one month of the request
- ☐ Within one week of the request

E. In relation to this investment, which investment risk and return profile best describes you? (select only one option)

We note again, that this question is in relation to this investment in particular, and not to your overall risk and return profile. In other words, what role are you expecting the fund to play in your overall portfolio.

☐ **I am seeking a fund with a low risk and return profile:**

You are looking for an investment that is low risk in nature (e.g. you have the ability to tolerate up to one negative return over a 20-year period and you are comfortable with a low target return from this investment. Funds designed to provide low risk and return typically provide capital preservation and invest in cash or cash like investments).

☐ **I am seeking a fund with a medium risk and return profile:**

You are looking for an investment that is moderate or medium risk in nature (e.g. you have the ability to tolerate up to four negative returns over a 20-year period and you are comfortable with a moderate target return from this investment. Funds designed to provide a medium risk and return are typically invested in defensive assets, such as fixed income products).

☐ **I am seeking a fund with a high risk and return profile:**

You are looking for an investment that is higher risk in nature (e.g. you have the ability to tolerate up to six negative returns over a 20-year period in order to achieve a higher target return from this investment. Funds with a high risk and return are typically invested in growth assets which include shares and property investments).

☐ **I am seeking a fund with a very high risk and return profile:**

You are looking for an investment that is very high risk in nature (e.g. you have the ability to tolerate six or more negative returns over a 20-year period as you are seeking to maximise returns and you can accept higher potential losses. Products with Very High risk and return are typically higher conviction portfolio such as concentrated share funds, hedge funds and other growth alternative assets).

☐

I am seeking a fund with an extremely high risk and return:

You are looking for an investment that is extremely high risk in nature (e.g. you can accept significant volatility and losses as you are seeking to obtain accelerated returns (potentially in a short time frame). Products with an extremely high risk and return profile are typically speculative investments in niche asset classes such as crypto assets).

F. What percentage of your total investable assets are you directing into this fund (i.e. the total assets you have available for investment, excluding your residential home)? (select only one option)

☐

Satellite Allocation (up to 10%)

☐

Minor Allocation (up to 25%)

☐

Core Component (up to 50%)

☐

Major Allocation (up to 75%)

☐

Solution/Standalone (up to 100%)

G. Where did you obtain your Application form? (select only one option)

OPERATING YOUR ACCOUNT

Do you want your financial adviser to be able to operate your account?

☐ **No** ☐ **Yes** - Please complete section 9 (Authorised representative of investor).

In general, an appointed financial adviser can do everything you can do with your investment, except appoint another person to operate your account. It is important to tell us promptly if you no longer wish your financial adviser to operate your account, or if your financial adviser changes – Registry Direct will keep accepting their instructions until you or your adviser inform us in writing that the appointment has terminated.

We may suspend or terminate their appointment for any reason considered reasonable, and may change the terms on which they operate your account.

You indemnify us from any loss you or we suffer as a result of the actions of your appointed financial adviser, and agree to ratify their actions if we ask.

Notice to financial adviser: by completing this section of the application form, you are confirming that you hold a current Australian Financial Services Licence (AFSL), or are otherwise authorised to advise on and arrange this product.

10. Global Tax Reporting Requirements (CRS/FATCA)

Why you need to complete this section?

The Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standard (CRS) are regulatory requirements that aim to deter tax evasion by US and other foreign taxpayers. The Australian and a number of other foreign Governments have an agreement which requires us to obtain certain information from investors, including taxation information. You may be liable to a penalty if you provide information that is false or misleading in a material particular. We may decide not to open an account without first receiving the required information. For more information, visit www.ato.gov.au

If you are unsure of any of the answers, please contact a legal or accounting professional.

WHO SHOULD COMPLETE THIS FORM?

This application form is for domestic and foreign companies investing on their own behalf, and individuals, domestic and foreign companies investing in their capacity as Trustee of a trust.

If you are a self-managed super fund (SMSF) please use the stand alone application form for SMSF.

This application form relates to the application for units in the ASA Diversified Property Fund (ARSN 106 724 038) as described in the PDS dated 31 October 2024 issued by ASA Funds Management Limited (ACN 079 538 499, AFSL No. 234455), as the responsible entity of the ASA Diversified Property Fund. This form must be accompanied by the PDS when provided to any person.

HOW TO COMPLETE THIS FORM

Step 1 Before submitting this form, please read the Product Disclosure Statement (PDS) available on our website www.asarep.com/dpf or if you are unable to access the link or print the document, contact us on 1300 553 122.

Units in a fund will only be issued following acceptance of an application form issued with the relevant PDS, with all required documents attached.

Online applications: Please complete online and then print to sign using a black pen.

Manual applications: Please print, use black pen and write in BLOCK letters. If you make an error do not use correction fluid, instead, cross out your error and initial your changes.

Note: Please ensure all fields are completed including those in sections A, B and C.

Step 2 For identification and verification purposes please complete the following sections in accordance with your investment type. If you are:

- » a regulated trust, complete sections 1, 2 and 3 (where applicable)
- » a regulated custodian, complete sections 1, 2 and 3
- » an unregulated trust, complete sections 1, 2, 3 (where applicable) and 4
- » a company acting on your own behalf, please complete section 3 and 4 (where applicable)
- » if you are investing under a margin loan please complete section C, and proceed
- » all investors must complete sections A to C and 13. Review the instructions in sections 1 to 4 to determine if you need to complete those sections.

Step 3 Tell us your foreign tax status

Please complete the Global Tax Reporting (FATCA/CRS) information in section 13.

Step 4 Sign and send your documents to our Administrator.

Please ensure you sign section 15 of the form in accordance with the instructions provided

Send by post:

Registry Direct
PO Box 572
Sandringham VIC 3191

Scan and email to: registry@registrydirect.com.au

Step 5 Make your payment

Please refer to section 7 of the application form and follow the instructions on how to pay the application amount. Your application cannot be processed until all relevant identification documents and cleared funds are received.

IMPORTANT INFORMATION

Please ensure all fields are completed. If you do not complete all relevant sections your application may be rejected and returned to you for completion, resulting in a delay in processing your application.

If you have any questions as you complete this form, please refer to the FAQs of this form, or contact us on 1300 553 122.

SECTION A: DDO Obligations

The following questions may assist ASA Funds Management Limited in meeting its regulatory obligations by determining whether this financial product is being offered to the stated target market.

The below only needs to be answered where you are a direct [retail] investor (i.e. does not apply to indirect or intermediated investments such as those made by platforms, custodians, etc).

Was this investment made based on personal advice received from your financial adviser?

Yes - Please ensure that details of your financial adviser are completed in section 11

No - Please complete the questions below

Please read and answer the following questions carefully: It is important for you to consider if the fund you are applying to invest in is in line with your needs and objectives for the portion of your investment portfolio that you intend to invest in this fund. In other words, the questions below should be answered having regard to what you are seeking from this particular investment - not what you may be seeking more generally from your overall investment portfolio as a whole. You should answer these questions based on what you are seeking from an investment (including your tolerance for risk) and your own situation, rather than just what you understand the features of this fund to be. If you do not know how to answer a question, or what you are seeking from the investment, you should consult your financial adviser.

All financial products provide different features, objectives, risks and return profiles.

You can understand more about the specific objectives and outcomes that the fund seeks to accomplish and to determine whether the fund is appropriate for your needs by consulting the fund's PDS and [Target Market Determination](#).

The following questions assist the issuer in meeting its regulatory obligations by enabling it to assess whether the selected fund is being offered to the stated target market. We reserve the right to refuse your application.

A. What is your primary investment objective in relation to this investment? (select only one option)

You are seeking an investment which provides Capital Growth

Capital Growth, also known as capital appreciation or capital gain, refers to an increase in the value of an asset over time. Capital Growth is not guaranteed, and the value of an investment can also decrease, resulting in capital losses. You should consider the amount of risk you are willing to accept to achieve a capital growth, (or loss) outcome. *If you are primarily seeking capital growth with some income, please select Capital Growth for Question A, and Yes for Question B. If you are instead seeking primarily income (and this is a more important objective to you than Capital Growth) please select Income Distribution for this Question A.*

You are seeking an investment which provides Capital Preservation

A Capital Preservation strategy is a strategy employed by certain types of investment funds with the primary objective of protecting the capital invested. Generally, funds designed to provide capital preservation have a lower risk profile and are less volatile than growth investments. You should consider if you are willing to accept lower returns (growth or income) as a result of choosing a fund with a lower risk profile.

You are seeking an investment which provides Income Distribution

Income Distribution refers to the income generated from the assets within a fund that is regularly paid out or distributed to investors periodically. The level of income generated will typically change each period and there is no guarantee of income being available each period.

B. Are you seeking a source of supplemental income (which may not be regular or recurrent) in addition to the above investment objective? (select only one option)

Note: If your primary objective is Capital Growth or Capital Preservation, but you are also seeking the potential for income supplemental to those objectives, select 'Yes'. If Income Distribution is your primary investment objective, please select Income Distribution in Question A, and 'No' for Question B.

☐ **Yes** ☐ **No**

C. What is your investment time frame in relation to this investment? (select only one option)

- ☐ Equal to 7 years or more (i.e. Long term)
- ☐ Equal to 5 years but less than 7 years (i.e. Medium to long term)
- ☐ More than 2 years but less than 5 years (i.e. Medium term)
- ☐ Up to and including 2 years (i.e. Short term)

D. Under normal circumstances, within what period do you expect to be able to access your funds for this investment? (select only one option)

- ☐ At ASA Funds Management Limited's discretion
- ☐ Within ten years of the request
- ☐ Within five years of the request
- ☐ Within one year of the request
- ☐ Within three months of the request
- ☐ Within one month of the request
- ☐ Within one week of the request

E. In relation to this investment, which investment risk and return profile best describes you? (select only one option)

We note again, that this question is in relation to this investment in particular, and not to your overall risk and return profile. In other words, what role are you expecting the fund to play in your overall portfolio.

- ☐ **I am seeking a fund with a low risk and return profile:**
You are looking for an investment that is low risk in nature (e.g. you have the ability to tolerate up to one negative return over a 20-year period and you are comfortable with a low target return from this investment. Funds designed to provide low risk and return typically provide capital preservation and invest in cash or cash like investments).

- ☐ **I am seeking a fund with a medium risk and return profile:**
You are looking for an investment that is moderate or medium risk in nature (e.g. you have the ability to tolerate up to four negative returns over a 20-year period and you are comfortable with a moderate target return from this investment. Funds designed to provide a medium risk and return are typically invested in defensive assets, such as fixed income products).

☐

I am seeking a fund with a high risk and return profile:

You are looking for an investment that is higher risk in nature (e.g. you have the ability to tolerate up to six negative returns over a 20-year period in order to achieve a higher target return from this investment. Funds with a high risk and return are typically invested in growth assets which include shares and property investments).

☐

I am seeking a fund with a very high risk and return profile:

You are looking for an investment that is very high risk in nature (e.g. you have the ability to tolerate six or more negative returns over a 20-year period as you are seeking to maximise returns and you can accept higher potential losses. Products with Very High risk and return are typically higher conviction portfolio such as concentrated share funds, hedge funds and other growth alternative assets).

☐

I am seeking a fund with an extremely high risk and return:

You are looking for an investment that is extremely high risk in nature (e.g. you can accept significant volatility and losses as you are seeking to obtain accelerated returns (potentially in a short time frame). Products with an extremely high risk and return profile are typically speculative investments in niche asset classes such as crypto assets).

F. What percentage of your total investable assets are you directing into this fund (i.e. the total assets you have available for investment, excluding your residential home)? (select only one option)

☐

Satellite Allocation (up to 10%)

☐

Minor Allocation (up to 25%)

☐

Core Component (up to 50%)

☐

Major Allocation (up to 75%)

☐

Solution/Standalone (up to 100%)

13. Tax Information - Global Tax Reporting Requirements (CRS/FATCA)

Why you need to complete this section?

The Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standard (CRS) are regulatory requirements that aim to deter tax evasion by US and other foreign taxpayers. The Australian and a number of other foreign Governments have an agreement which requires us to obtain certain information from investors, including taxation information. You may be liable to a penalty if you provide information that is false or misleading in a material particular. We may decide not to open an account without first receiving the required information. For more information, visit www.ato.gov.au

If you are unsure of any of the answers, please contact a legal or accounting professional.

HELP

Tell me about tax residence

You can be a resident of more than one country for tax purposes. Whether you are tax resident of a particular country for tax purposes is often based on the amount of time you spend in a country and the location of your residence and/or place of work. If you pay tax or have a tax liability somewhere, you are probably a tax resident there. Dual citizenship often brings dual tax residency.

It depends on the country. For the US, tax residency can be as a result of citizenship or residency for tax purposes. If you are unsure, ask someone who knows, usually your accountant.

13.1 Companies and Non-Superannuation Trusts

13.1.1 Are you a specified US person for tax purposes?

- ☐ No
- ☐ Yes - Please tell us your TIN

13.1.2 Are you a resident of any other country for tax purposes? Other than the US or Australia.

☐ **No** ☐ **Yes** - Please tell us which ones, using the following table

HELP

No TIN? Reasons we accept are:
Reason A: The country of tax residency does not issue TINs to its tax residents
Reason B: The entity/individual has not been issued with a TIN
Reason C: The country of tax residency does not require the TIN to be disclosed

13.1.3 Are you a financial institution?

☐ **No** ☐ **Yes** - Please tell us your GIIN* - see HELP box.

HELP - What is a Financial Institution?
For further details about a Financial Institution, please refer to the ATO's AEOI Guidance - www.ato.gov.au/general/international-tax-agreements/in-detail/international-arrangements/automatic-exchange-of-information---crs-and-fatca/?page=2#2_Financial_institutions

HELP - What is a GIIN?
This stands for Global Intermediary Identification Number. GIINs are 19 digits long, issued by US tax authorities (the IRS) to non US financial institutions and sponsoring entities for purposes of identifying their registration with the IRS under US tax laws (called FATCA).
For further details about the GIIN please refer to the IRS GIIN Composition Information - Please refer to www.irs.gov/businesses/corporations/fatca-registration-and-ffi-list-giin-composition-information

Where to now?

I ticked yes and completed my GIIN - go to 13.1.4.
I ticked yes and I am a Managed Investment Entity in a non-CRS participating jurisdiction - If no, proceed to question 13.1.4.
I ticked yes but did not write a GIIN – please tick below why you did not write a GIIN - then go to 13.1.4.

13.1.4 Are you a public company listed on a stock exchange or a related entity of a publicly listed company or a governmental entity?

☐ **No** ☐ **Yes** - Then go to section 14 and 15.

13.1.5 Are you active or passive?

☐ **I am an 'ACTIVE' non financial entity. Please tell us what type of active NFE you are below - then go to section 14 and 15**

☐ **I am a 'PASSIVE' non financial entity**

HELP - What is active and passive?

A non-financial entity (NFE) is any entity that is not a financial institution as defined above.

You will be a passive NFE if you are not an active NFE.

Generally, you will be an active NFE if:

- ☐ your stock (or a related entity's stock) is regularly traded on established securities market less than 50% of your gross income for the previous reporting period was passive income and less than 50% of your assets during that period produce or were held to produce passive income.
- ☐ you are a Governmental entity, an international organisation, a central bank or an entity wholly owned by one of the above.
- ☐ you are exempt from income tax in your residential jurisdiction and were established and operated exclusively for religious, charitable, scientific, artistic, athletic or educational purposes and meet certain other specific criteria.
- ☐ you have not been a financial institution in the past five years and are in the process of liquidating your assets or reorganising with the intent to recommence operations other than as a financial institution.

If you are unsure whether you are an active or passive NFE, please get advice.

13.1.6 Do you have any controlling persons who are resident of another country or jurisdiction of tax residency for tax purposes?

☐ **I am PASSIVE, and YES I do have controlling persons who are resident of a country or jurisdiction other than Australia for tax purposes**

Complete the controlling persons details in the table below - then go to section 14 and 15. If there is not enough room in the table, please copy the page and attach it to your completed form.

☐ **I am PASSIVE, but NO I do not have controlling persons who are resident of a country or jurisdiction other than Australia for tax purposes**

It would be unusual to think of no-one. Please read the HELP box. If you are sure - go to section 14 and 15.

HELP - Controlling persons

Controlling persons are natural persons who exercise control over an entity.

For trusts, the settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the trust for FATCA/CRS purposes.

For companies, controlling persons generally include any person who holds (directly or indirectly) more than 25% of the shares in the company and any person who has the power to influence decisions about the company's financial and operating policies, such as senior managing officials or directors.
